

## GARAGES SHOULD BE WELL VENTILATED

New York, Nov. 24.—Cold weather "don'ts" of the past have been increased this year with a new one by the ventilation experts. It is that you make sure your garage is properly ventilated or your relatives may have to call an undertaker. Deadly carbon monoxide, a poisonous gas given off by automobile engines in motion, has taken a big toll of human lives in the past in the case of chauffeurs or car owners who failed to realize that working in a poorly ventilated or closed garage with the engine running was really as foolish as "blowing out the light" in the good old days.

New discoveries of the virulence of carbon monoxide recently have been made by Professor Tandell Harrison and other engineers working to solve the problem of ventilation for the proposed vehicular tunnel under the Hudson river. Among their tests was one to show the effect of the gas when it is inhaled in closed spaces. A summary

of their observations, with particular reference to garages, appears in The Journal of The American Medical Association.

It showed that if the quantity of carbon monoxide in air did not exceed three parts in 10,000, no physiological effects were produced. Between three and six parts to the 10,000 the effects were hardly perceptible. Above that, headache and nausea were induced, increasing in severity with the rising of the ratio and when it reached 15 to the 10,000 life was in jeopardy.

Motor car owners and operators are warned that an engine emits a square foot of the deadly gas a minute when in motion and in three minutes the air in a closed garage is surcharged to a sufficient degree greatly to imperil human life. The victim falls unconscious before he realizes he is in peril and death is the outcome unless he is speedily rescued and brought into the open air.

## IF YOUR EARS RING WITH HEAD NOISES

If you have roaring, buzzing noises in your ears, are getting hard of hearing, and fear catarrhal deafness, go to your druggist and get one ounce of Parmitin (double strength), and add to it 1/4 pint of hot water and a little granulated sugar. Take one tablespoonful four times a day.

This will often bring quick relief from the distressing head noises. Clogged nostrils should open, breathing become easy and the mucous membrane lining the throat. It is easy to prepare, costs little and is pleasant to take. Anyone who has catarrhal trouble of the ears, is hard of hearing or has head noises should give this prescription a trial.

## THANKSGIVING FARE FOR AMERICANS ON THE RHINE

Coblenz, Nov. 24.—(By the A. P.)—Eleven thousand American soldiers stationed on the Rhine tucked away 15,000 pounds of turkey a while place de resistance of their Thanksgiving dinner. There were the usual "trimmings" of cranberries, raisins and pumpkin pie and piping hot plum pudding. Many units with mess funds added to their menu roast duck, pig, goose and chicken, and even pheasants and venison which are plentiful and cheap this year.

While the plum pudding and pumpkins for the pies were sent from the United States, the turkeys were bought from German farmers, and cost only eleven cents a pound, as compared with eighty cents paid last year for turkeys shipped from America. The families of the 500 officers had home-fod turkeys raised on the quartermaster's farm near here, and costing the officers thirty cents a pound.

Nearly every unit was represented in the football games, of which a score were held, and every man was entertained by some form of sport or attended the concerts and vaudeville programs staged by the welfare organizations throughout the American occupational area.

Beauty is only skin deep, but a sweet disposition extends all the way through.

## UKRAINIANS END MOVEMENT AGAINST RUSSIAN SOVIET

London, Nov. 24.—(By the A. P.)—The Ukrainian movement against the Russian soviet government has come to an end, General Simon Petliura and his officers have abandoned the campaign.

Kiev, Kamenez-Podolsk, Winnitsa and other places reported to have been captured by Petliura's forces were never seriously menaced.

General Petliura's latest campaign against the Russian government began in the spring of this year. He was reported to have entered Kiev at the head of Ukrainian revolutionary troops on March 2, and to have executed the bolshevik commissaries there. The subsequent movements of his force were reported to have caused alarm in Moscow, and the soviet government dispatched notes to Poland and Rumania as a consequence, the reported capture of Kamenez-Podolsk on November 4 was denied at the time by the British mission in Warsaw.

## PATROLMAN IN BATTLE WITH ALLEGED BURGLARS

New York, Nov. 24.—Richard Barratt, a chauffeur, is dead and Police Patrolman William Hostwick is in a hospital, badly beaten up and held on a charge of technical homicide, the outcome of a battle early today between the officer and a gang of alleged burglars. Alec Nevens and John Monahan were charged with attempted burglary and felonious assault.

On his beat in the Bronx, Hostwick heard the crashing of glass. He saw a group of men leaving a bakery, called on them to halt, and captured Barratt. As he searched the prisoners one of the other men, emerged from a doorway, snatched his nightstick and beat him over the head. Hostwick drew his pistol and fired, the bullet striking Barratt. Nevens was arrested by another patrolman, Monahan, badly beaten, was found hiding on the third floor of a nearby house.

## CREW OF THE STEAMER MONTREAL MUTINIED

Rome, Nov. 24.—A mutiny occurred among the crew of the steamer Montreal from Montreal, Nov. 4 for Naples and Genoa which recently arrived at Naples. It was reported today in a dispatch to the Tempo of Naples. The crew was discharged upon reaching port, the dispatch says, and some of the sailors after disembarking tried to sack the vessel, but were dispersed by police.
